Streaming video in real time on Facebook Live

Recording videos

→ [Disconnecting your Facebook account or changing accounts](#)

If you want to disconnect your Facebook account from the DxO ONE application (for example, if you want to switch to another account or if you're using a phone that isn't yours), follow the steps below:

- 1 In the DxO ONE application, from the viewfinder screen in video mode, open camera settings.
- 2 Click on the Disconnect button in the "Enable Facebook Live" section.
- 3 Next, use your browser to sign out of your Facebook account.
- 4 Quit from the Facebook application if necessary.

The last two steps are especially important if you want to change accounts. If you do not sign out properly and try to broadcast on Facebook Live again, Facebook will automatically use the account saved in Safari and/or the Facebook application.
